Rotary Selector Switch

Easy Temperature Selection for Air Heaters

Simple and stepless rotary selector for temperature preselection between 5 and 35°C. When the set temperature is reached, the heater is turned down and switched on again if required. Heating/ventilation mode can be optionally retrofitted with an additional rocker switch.

Key Benefits at a Glance:

- Simple and stepless temperature preselection
- Status LED
- Temperature sensor included
- Optionally expandable with installation cover panel for installation shaft

Technical Specifications

	Rotary Selector Switch
Operating time	continuous heating ventilation optional
Power supply (V DC)	12 / 24
Operating temperature range (°C)	-40 to +75
Connection type	Analogue Switch Output
Dimensions (L x W x H) (mm)	58 x 38.6 x 69.5
Weight (g)	100

Scope of Delivery:

- Rotary Selector Switch
- Cover panel

Supported Webasto Heaters:

- Air Top 2000 STC
- Air Top Evo 40 / 55
